**About the game machine:** We have seen the doll's machine in the mall. Some people are particularly powerful and can be caught almost every time. The real doll machine is similar to the real person cs. People can experience this feeling. The adults operate the children to catch the doll. A lot of fun.

#### How to play:

1. The player puts on safety gear, helmet and hand suit to start the game. The operator or another piece player operates the start button on the console to start the machine. The left joystick controls the lateral movement of the motor and the right joystick controls the up and down movement. 3. In the automatic mode, only the left rocker is needed to control the lateral movement of the motor, and the key controls the automatic rise and fall of one key, staying at the bottom to grab for two seconds (time can be adjusted). The player descends to the grab zone and picks up the doll with his suit, which can be taken away if he holds it. Specific difficulty adjustment mode: 1. Adjust the game time.3. Increase the number of ocean balls and reduce the number of dolls. Ocean balls can be exchanged for favorite gifts in the form of points. (ocean ball is not easy to grasp with the suit) 4 directly replace the figure with the big twist egg, twist egg can put all kinds of points coupons or the figure exchange coupons.
